PROFILE

Diligent MERN Stack Developer with a strong foundation in modern web technologies. Experienced in building intuitive user interfaces and integrating efficient back-end logic to enhance overall functionality. Capable of working independently as well as collaborating in a team environment.

SKILLS

Technical Skills

HTML · CSS · JavaScript · Java
React · Redux · Node.js · Express.js
MongoDB · Firebase · MySQL
Git · Linux · Postman

Soft Skills

Teamwork
Time Management
Adaptability
Consistency

EXPERIENCE

Hackfest'24 Finalist (Team Epsilon)

SAP x PSG iTech Hackathon

Mar 2024

Coimbatore, India

- Reached Top 93 out of 2,500 teams. Developed DConnect, a dynamic carpooling application that allows users to seamlessly switch between being a driver or a passenger, offering a flexible and efficient ride-sharing experience.

PROJECTS

PG Application - Full Stack PG Website

React, Node, Express, Redux, Firebase, MongoDB, Cloudinary

- Built a web application for managing Paying Guest bookings using React, Node, and Express.
- Implemented authentication using Firebase, and used MongoDB for data storage.
- Used Redux for state management and Cloudinary for image uploads.

DConnect - Dynamic Carpooling Application

HTML, CSS, JavaScript, Flask, MongoDB

- Developed a dynamic carpooling platform with secure login, vehicle registration, ride booking, real-time weather updates, and live ride tracking using Google Maps API.
- Integrated secure in-app payments via Razorpay and designed a post-ride feedback system for user ratings and experience reviews.

EDUCATION

Bachelor of Engineering in Computer Science

St. Joseph Engineering College (VTU)

2022 - 2026

Mangaluru, Karnataka

ACHIEVEMENT

Top 93 out of 2500 teams in Hackfest'24, a national hackathon organized by SAP.
